

## END SCENE CLIP

### Family/friends

This video can be played by our actors at the end of your game, it's not mandatory to create a video. Once you create it, upload it to Youtube or any other platform (you can even have it on your google drive or dropbox or other cloud storage) and paste the link to it in the "MyGame" area.

*This clip should be recorded by a close friend or a family member who is **not present during the game.***

*Alex Wise and Omega are characters within the game so it is cool if the person recording the video will mention their names as if he knows them for a long time and has interacted with them in the past.*

Here is the text template:

*"Hi everybody,*

*I wish to thank Alex Wise despite everything that has happened and of course all of you for saving our family / groups of friends.*

*I had no doubt that you are the right people for the task – only super smart and extremely modest people like you can succeed in handling such complex missions.*

*(Here you can say a few words about the person who is celebrating or about specific people in the group)*

*I will see you all soon.*

*Yours truly,*

*Omega, \_\_\_\_\_ (your name)"*
